TRASH TALK

Just in case you haven't been out at 5:30am on a Tuesday mornings to watch our garbage delivery we have front dumping garbage trucks. They carry a front dumpster and the cans are picked up and dumped into it. This is open air and once it gets full the truck then lifts the dumpster up and empties it in the back of the truck. This can cause loose garbage to blow out and litter the city streets. It is more important than ever to make sure all your trash including junk mail and loose papers are in a tied bag. This will keep your trash from blowing out of the front dumpster and the back of the truck.

For any needs with the garbage pickup for City of Goshen residents such as needing a large item picked up, needing a trash can replaced etc., please email Republic at:

Goshen@RepublicServices.com This email goes directly to the City of Goshen's Republic account manager. Be sure they respond prior to placing any large items or broken cans out for pick up.

Litter be GONE

How Littering Can Affect Local Waterways

Garbage can easily become aquatic trash if it is not properly disposed of or securely contained. When garbage is littered on the ground rather than placed in a recycle, compost, or trash bin, rain and wind often carries it into storm drains, streams, lakes, and rivers. For example, a cigarette butt tossed on the ground might wash into a storm drain and travel through the stormwater system, which in some cases, leads directly into waterways.

Everyone pitching in with pride for
our City and our Community!

CITY OF GOSHEN
ORDINANCE # 01-2018

**AN ORDINANCE REQUIRING A LICENSE FOR RENTAL PROPERTY IN THE
CITY OF GOSHEN**

WHEREAS, the City of Goshen finds that the operation of rental properties for compensation is a recognizable and distinct class of occupation within the City, which the City is entitled to tax and license under KRS 92.280, with the fees from said license going to the general fund of the city to help defray the cost of maintaining current contact (ownership, rental agent, occupant) information for all rental properties in the city and also the cost of the providing of city services, such as lighting, police protection and public work expenditures, which the rental properties use each day,

AND WHEREAS, the City finds that a narrowly tailored ordinance that establishes a registration and permitting process enabling the City to keep and establish a means of clear and concise communication with the owners, rental agents and occupants of rental property in the City is a reasonable regulation that addresses a real public health and safety concern and which power is specifically authorized and given to the City under KRS 92.280 and KRS 92.330,

NOW THEREFORE, BE IT ORDAINED BY THE CITY OF GOSHEN COMMISSION:

No person shall engage in any rental of real property in the City of Goshen for which licenses are required by any provision of this code or any other ordinance of the city without first applying for and obtaining a license from the City Clerk or other duly authorized issuing authority. The fee for a license shall be \$100.00.

All license fees shall be due or payable by September 1 of each year beginning August 1, 2020. Fees not paid by September 1 shall be delinquent and shall automatically be increased by a ten percent (10%) penalty. Interest on any delinquent fee shall increase at 1% per month. The license is valid from July 1 to June 30.

Architectural Control Form can be downloaded from the CityofGoshen.com web-
